

# OCHS Football Helmet Campaign

Concussions can occur in any sport or recreational activity. That is why we as coaches, parents, and athletes need to learn concussion signs and symptoms and what to do if a concussion occurs. In addition to being informed on the signs of a possible injury, *OCHS Football* is taking measures to provide athletes with the latest preventative technology available to maximize the safety of our student-athletes.

This is why we are launching a campaign to purchase new football helmets for our Varsity, JV and Freshman teams.

***Please join us in keeping our student athletes safe.***

***Purchase a helmet today.***
